

THE HAY-YA-HEAR

Medicare Part B

First off, I would like to tell you what's behind the cartoon illustrated above - CO-OPERATION. This little cartoon illustrates better than words can tell the importance of teamwork and pulling together.

If we each go our own way, nothing is accomplished; but if we jointly attack each problem, each job, and each challenge, working together as a team, we can literally move mountains.

As illustrated, the two donkeys found little to eat when they pulled against each other; but when they both went in the same direction they were not only able to eat from one pile of hay, but also from the other.

The same reasoning can be used in the fulfillment of our jobs. If each of us in our daily job work together with our fellow co-workers as a team, we could accomplish much more. . . faster!

Let's all try pulling together in the same direction.

I would like to give a big WELCOME to the following new employees:

MISCELLANEOUS:

We are very happy to see that Donna Madigan is out of the hospital and back with us.

Sharon Jones began her vacation on 1/23/74. She plans to attend the Florida State game in Tallahassee.

Patti McKinney in CRT, would like any suggestions for a proper name for a small black, female poodle.

The Supervisors on the 15th floor would like to take this opportunity to say a great big THANKS to the participants in Saturday's Open House. You ladies (Mr. Ivey and Mr. West excluded of course!), did a bang up job. We're proud of all of you! Especially to S. T. and P. M. in CRT, a quote from Sam, "I'm real proud of these girls!"

"SORRY, HENRY"

While preparing last months news letter, I called the Mail Room and learned that Henry was very upset because he is the only male in the whole room. Even though we have him outnumbered, I'm sure he's as happy as we are, to be out of the hospital and back with us.
